

# ELEVATE YOUR UTILITY SAFETY CAREER BY BECOMING A CUSP

NOW AVAILABLE IN THE  
UNITED STATES & CANADA!

CERTIFIED UTILITY  
SAFETY PROFESSIONALS

# CUSP

ACCREDITED BY THE INTERNATIONAL SOCIETY FOR PERFORMANCE IMPROVEMENT

INCREASE YOUR VALUE  
WITHIN YOUR ORGANIZATION

GAIN INDUSTRY-WIDE RECOGNITION  
AS A SAFETY PROFESSIONAL

EXPAND YOUR CAREER  
GROWTH OPPORTUNITIES

EMPLOYERS ARE SEEKING  
CUSP CANDIDATES

MAKE VALUABLE CONNECTIONS  
WITH UTILITY SAFETY PROS

# WHAT IS THE CERTIFIED UTILITY SAFETY PROFESSIONAL (CUSP) CREDENTIAL?

The Certified Utility Safety Professional (CUSP) certification program is the only program that offers safety credentials to utilities, related contractors and communication providers. Created by the Utility Safety & Ops Leadership Network (USOLN), the CUSP credential provides industry-wide professional recognition as a utility safety professional and provides employers the assurance of an individual's broad knowledge, skills and abilities in the utility work environment when hiring or promoting. The USOLN Board of Directors is the oversight body for the Certified Utility Safety Professional Credential. It is an objective and impartial body that is responsible for all decision-making and operations of the certification program.

## Accredited by the International Society for Performance Improvement

The Certified Utility Safety Professional certification is accredited by the International Society for Performance Improvement (ISPI). The ISPI accreditation provides an independent, third-party validation of the quality and effectiveness of the CUSP credential by a respected and trusted world leader in performance improvement and workplace productivity. It affirms the role of the CUSP credential in creating a safe and productive utility workplace.

# WHY SHOULD YOU BECOME A CUSP?

If you have dedicated your career to providing safety and operations leadership in the utility industry, now is the time to enhance your professional status with the CUSP certification. Join a distinguished group of hundreds of individuals who have demonstrated their job safety knowledge and skills by becoming certified. As a CUSP credential holder, you will benefit from:

- Industry-wide professional recognition as a utility safety professional
- The assurance provided to your employer and others that you have the broad knowledge, skills and abilities needed to excel in the utility work environment
- Increased career growth opportunities because CUSP credential holders are in demand in the utility industry.
- Access to additional support from the our growing CUSP community
- The opportunity to continue your professional growth in the practice of utility safety leadership

**FOR MORE INFORMATION, AND TO SUBMIT YOUR APPLICATION, VISIT [USOLN.ORG](http://USOLN.ORG)**

# YOUR PATH TO BECOMING A CUSP

This easy six step process is all that separates you from becoming a CUSP! When you're ready to begin your journey toward achieving the esteemed CUSP credential, get started at [usoln.org/application](http://usoln.org/application) today!
